CONSULTING

SIMPLIFY RUNNING YOUR BUSINESS

Do you want to increase customer satisfaction, increase sales, ease employee expense/turnover and reduce various costs?

Arehart Consulting LLC is a local software and hardware consulting company. We will find ways to simplify running your business to help you achieve your goals.

HELP CLEARLY DEFINE YOUR GOALS

Our President, Patrick Arehart, will meet with you and listen to your challenges. It is much easier to achieve goals that have been clearly defined.

You do not need a perfect idea of what you want. You are an expert in your business. We are an expert in ours. Let us help you just like you help your customers.

After gathering information together about your business goals, we will describe what they mean in terms of software and hardware. Then together, we discuss and prioritize the list of goals and the implementation of solutions.

FIND SOLUTIONS FOR YOUR GOALS

Arehart Consulting LLC has decades of business experience solving challenges using software and hardware solutions.

Using your goals and our experience, we will find or create the right solution for you.

Some of our clients want a solution written especially for their unique business. We can build systems for you. Let us help weigh the pros and cons of a custom solution. We have clients that only use our software to run their business and it perfectly matches their business processes. You can talk to our clients to get their thoughts on our solutions.

HELP INSTALL, SETUP AND TRAIN

Finding the solution is important. Putting the solution into production is more important. This includes installation, setup and training for your employees on how to effectively use the new systems.

ONGOING SUPPORT

After the solution is working, we will be just a phone call away. Arehart Consulting LLC has been in business since 1988. We love what we do. We are here now and we will be here in the future to help with your next challenges.

As our two businesses get to know each other over the years our relationship will be even more valuable to your company. Your success is our success!
